COMPANY BIO

i-tec Technologies specialises in the design and manufacturing of solutions for mobile tech users. An established and well-known brand in Europe, i-tec is a market leader in the sector, serving a broad range of customers including SOHO, SMB and Enterprise, as well as home users.

Society today demands flexibility, agility and speed of response, which means being able to work on the move, from anywhere, anytime. Our goal is to provide clean-desk solutions; solutions that are universal, interconnected, versatile, efficient and secure, for all user types, whether at home, in the office, or on the road.

NEXT GENERATION THUNDERBOLT™ 4 DOCKING STATION

i-tec PRODUCT CONFIGURATOR

Helping you quickly and efficiently select a product that matches your requirements.

i-tec PRODUCT AND TECHNICAL SUPPORT

Making sure the products work. 24/7

i-tec DOCKER PRO

Enables you to get the most out of your notebook or tablet, regardless of whether at home or in the office.

MAC ADDRESS CLONE:

Regardless of the brand or model of the notebook or tablet being used, i-tec Docker Pro allows the device to clone its native MAC address to the LAN port on the docking station.

DATA BACKUP:

Manual or automatic backup of all your user data in the Windows environment. You can backup to any USB drive, or flash or SD card, when using any i-tec docking station. Fast, reliable and automated incremental backup.

DOCKING STATIONS

UNLOCK YOUR FULL POTENTIAL

Modern notebooks are compact and provide outstanding performance, although the lack of ports and connectivity options can quickly become a constraint. Our universal docking stations, compatible with all notebook brands and platforms, help turn your notebook into a powerful and professional workstation, whether in an office or mobile environment. Connect up to three external displays, plus all of your favourite USB devices and peripherals, through a single cable. Choose from one of our broad range of USB 3.0, USB-C, USB4, Thunderbolt™ 4 or Thunderbolt™ 3 solutions.

GRAND EXPERIENCES ON GRAND SCREENS

If you like to work on a big screen, or in high resolution, we offer a simple solution. Connect one of our video adapters to the Thunderbolt or USB-C port of your notebook and you are good to go! Are you looking to work in 4K resolution with 60 Hz refresh rate? No problem – our adapters are more than capable of meeting your requirements.

HUBS AND CHARGERS

HELPING YOU TO GET CONNECTED

If you would like to simply connect a USB device, transfer data or photos from a smartphone or SD card, or need high-speed internet access via a LAN port, we can help. The almost limitless end-user scenarios have meant that our portfolio has evolved and expanded over time, to the point where we believe we cover all of the most common requirements, in addition to some of the more obscure.

KEEPING ENERGY LEVELS HIGH

We have come to rely on 24/7 access to mobile tech, whether it be a smartphone, notebook, tablet or camera, all of which need to be charged regularly. We have developed a range of products that offer convenient universal charging, for a wide range of user scenarios.

Model	USB-C Power Delivery	USB-A Charging Ports	USB-A Charging Power	COLOUR
CHARGER-C112W	• (100W)	1	12W	BLACK
CHARGER-C60WT	• (60W)	1	12W	WHITE
CHARGER-C60WPLUS	• (60W)	1	12W	BLACK
CHARGER-C77W	• (65W)	1	12W	BLACK
CHARGER2A4B		2	12W	BLACK
CHARGER2A4W		2	12W	WHITE

NEXT GENERATION CHARGING HUB

Many users need to charge multiple devices at once: smartphones, tablets, cameras, power banks, etc. Our next-generation charging HUBs can be the ideal solution, offering a guaranteed charging power of 15W per port, even when all ports are fully populated. And, of course, the ability to transfer data, a feature that most chargers completely lack!

Model	Host type	Number of ports			Power per port	Power in total	Data transfer	DC Adapter in HUB
		Total	USB-A	USB-C				
CACHRGHUB10A	Any (USB 3.0/USB-C/TB) *	10	10		15W	150 W	Yes	•
CACHRGHUB10AC	Any (USB 3.0/USB-C/TB) *	10	5	5	15W	150 W	Yes	•
CACHRGHUB20A	Any (USB 3.0/USB-C/TB) *	20	20		15W	300 W	Yes	•
CACHRGHUB20AC	Any (USB 3.0/USB-C/TB) *	20	10	10	15W	300 W	Yes	•

(In the case of data transfer mode, the charging speed is 5W)

* Connection to a computer is optional. Not required if only charging is required

Proven quality

We have been a market leader in Central and Eastern Europe for more than 20 years – the product is proven.

Product Range

We have one of the largest ranges of USB-C docking stations, video adapters, hubs, enclosures and chargers – we offer great solutions for both B2B and B2C sectors.

Cross-Brand & Cross-Platform Compatibility

We are proud to provide solutions that work with all notebooks brands and OS – we have something for everyone.

Price Levels

We work hard to keep overheads low and to offer market-leading pricing – we stay ahead of the market.

Bid Support & Protection

We make sure we recognise and reward the good work of our partners – we treat others as we like to be treated.

Pre-Production Demo Units

By making our partners and end users aware of forthcoming products, we make sure they use the most up-to-date technology – we always have one eye on the future.

Extended Warranty

We offer up to 60 months warranty cover and lifetime product support – we offer market-leading service.

Custom Solutions

We are able to modify or develop entirely customised solutions for Enterprise customers – we are always looking for the ideal solution.

Proof of Concept

We provide free-of-charge demo units, allowing the end user to carry out a trial during the concept phase – we go the extra mile for our customers.
